

HURRICANE EVACUATION INFORMATION

Individuals living in hurricane evacuation zones anywhere in the State of Texas needing assistance with transportation in the event of an evacuation may register by calling 2-1-1. Individuals may register 24 hours a day now or at any time PRIOR TO 72 HOURS BEFORE LANDFALL. Upon calling 2-1-1 individuals need to express their wish to register for transportation assistance in the event of an evacuation in their area. The specialist will request basic information and upon completion of the telephone call, registration will be complete. The local office of Emergency Management may contact individuals about their registration. The local Elected Official will determine when an evacuation will be ordered. If an evacuation is ordered, the local office of Emergency Management will coordinate the evacuation.

If you or someone you know will need transportation in order to evacuate, the time to register is NOW! Don't wait.
